13 JULY 2017

WEPA screening “Understorey” next Tues 18 July

At the July WEPA meeting we will be screening '[Understorey](#)' a breathtaking documentary made by David Gallan which outlines the four decades long campaign to save the NSW south east forests from wood chipping and features unique footage of the forests' diverse wildlife.

When: 8pm Tuesday 18 July 2017

Where: Glenaeon School Hall

121 Edinburgh Road, Castlecrag

All welcome. No charge, supper provided.

In 2019 the Regional Forest Agreement (RFA), which underpins the native forest industry in this region will expire. The National Parks Association (Far South Coast Branch) have flagged that the government preference is for an automatic rollover with no public consultation. We agree with them that this is unacceptable.

The NPA hosted a forest forum on 11 June 2017 at the Tathra hall, which will start a campaign to promote the message that there are better uses for our native forests than woodchipping and that alternative forest strategies are available.

WEPA will seek an update from this campaign to share with members at our July meeting.

In the meantime you can find out more about '[Understorey](#)' [here](#).

And more about RFA's here: Rosemary Beaumont, [It is Everyone's Forest](#), Green Agenda, 4 June 2017.

An Inconvenient Sequel – preview events

[Nature Conservation Council](#) preview events:

31 July [Randwick](#)

1 August [Cremorne](#)

2 August [Newtown](#)

A decade after Al Gore's 'An Inconvenient Truth' brought climate change into the heart of popular culture comes the follow-up that shows just how close we are to a real energy revolution.

Join us for a preview screening. We want you to have the first opportunity to see the film and hear about we can turn Al Gore's message of hope into real action here in NSW.

'Inconvenient Sequel' is a follow-up to Davis Guggenheim's Oscar-winning 2006 film 'An Inconvenient Truth' which followed Al Gore's efforts to convince legislators and the public of the devastating effects of climate change. Capturing all of the progress and setbacks that have occurred in the 11 years since the original. It shows the growing impact that climate change is having on the world, as well as the huge strides we're making in the field of renewable energy.

On Monday we were lucky to see the film and hear from Al Gore himself. His message of hope and commitment to action was truly inspiring. Don't miss this chance to see the film and hear how together we can combat climate change and [#repower](#) NSW with clean energy

It is an urgent, imaginative and necessary film and I hope you'll join us. Get your tickets to a screening above.

See you at the big screen!

Help us help the environment

WEPA relies on your involvement to lobby and educate on the need to protect the local environment. We also rely on your membership fees to help finance these activities.

In case you haven't already done so, could you fill out the Annual Subscription form below and return it with your payment either to the address listed – or bring it and your payment along on Tuesday evening. The Annual Subscription form can be downloaded and printed from: <https://wepa.org.au/about-2/wepa-membership/>

Payment can be made by EFT, cheque, or cash on the night.

Make a positive contribution to preserving the environment – join WEPA today!

2017 ANNUAL MEMBERSHIP SUBSCRIPTION FORM

I wish to renew/apply for membership of WEPA. Payment is enclosed for:

- \$5 Fixed income – pensioner, student, unemployed
 \$10 Per person
 \$25 Incorporated Association
